

# Your Vision, Our Reality

New Zealand's  
premiere cladding and  
façade specialists.

# Your partners in design, performance and compliance.

We are specialists in end-to-end cladding systems for iconic buildings with the expert support, systems and stock you need to make your vision a reality.

# Ensuring your projects maintain momentum and visions remain a reality.

At Paneltec, high-performing exteriors start from the inside out. Our façade systems are enhanced by our unparalleled support, unmatched responsiveness, and unbeatable stock.

## Unparalleled technical support

Our expert team is always on hand, ready to resolve complex details and provide technical support.

---

## Unmatched responsiveness

We are known for being highly proactive and the most responsive in the market. No follow-up is needed.

---

## More stock. More sizes. More colours.

We're renowned for having the highest stock levels, greatest selection of sizes and widest choice of colours. Whatever design you have in mind, we can help you achieve it.

---

## End-to-end partners

From design to installation, compliance to supply, we offer end-to-end support to make sure you get the outcome you desire. We are your partners in design, compliance and installation.

# Our design services

Our dedicated in-house design team are able to assist in achieving your desired façade. We can provide guidance and recommendations throughout the project, from initial architectural designs through to detailed shop drawings.

This approach streamlines compliance requirements and simplifies the challenges of your façade design. By having shop drawings at tendering stage it increases the accuracy of installation quotes.

# Our products

## Indurabond

Indurabond is a 4mm ACM (aluminium composite material) panel with a fire-rated core. It is prefinished in a low maintenance and high UV resistant PVDF paint, backed with a 15 year warranty.

**Benefits:** PASS Certificate, Masterspec Partner, High stock holding, NZ Compliance, PVDF paint finish

**Uses:** Compliant for use on any building under 10m in height and more than 1m from a boundary. Great for high-end residential, commercial and industrial buildings, and offices.

## Indurabond

ALUMINIUM COMPOSITE PANELS

## Induracore G2

Induracore G2 is a 4mm, three layer aluminium laminated panel. The uniqueness of this panel comes from its pressed aluminium, non-combustible and lightweight core. It is prefinished in a low maintenance high UV resistant PVDF paint, backed with a 15 year warranty.

**Benefits:** Codemark Certified, Masterspec Partner, EPD Certified, Full Compliance, Large Colour Range

**Uses:** Compliant for use on any size building in NZ. It is perfect for use as a lightweight façade on apartments, office blocks, other high-rise buildings and re-clads.

# Induracore G2

ALUMINIUM LAMINATED PANELS

## Induraplate

Induraplate is a 3mm solid, 100% non-combustible aluminium panel. It is prefinished in a PVDF paint and is backed with a 15 year warranty.

**Benefits:** Masterspec Partner, EPD Certified, Solid Aluminium, Full Compliance, High Impact Resistance

**Uses:** Compliant for use on any size building in NZ. It is perfect for use on high-rise buildings and where impact resistance is needed.

# Induraplate

SOLID ALUMINIUM PANELS

## Genesis

Genesis is a prefinished compressed fibre cement panel. Its unique through-colour system means there is very low ongoing maintenance and no on-site painting.

**Benefits:** Codemark Certified, Masterspec Partner

**Uses:** Compliant for unrestricted use in NZ. It is perfect for use on projects where high impact and low maintenance products are needed such as schools, apartments, and healthcare projects.
